Cardinal Gibbons will call the attention of the Archbishops of the United States to the plan for a yearly contribution to the Pope by the ciergy of this country.

Hundreds of progressive merchants have discovered they can best serve their customers by selling carpets from rug size samples. There are four good reasons why this method benefits you: First-You have a greater variety from which to select.

Second—You have the latest patterns from which to choose as new samples are sent each season. Third-You receive fresh new goods. No danger of shop-worn

Fourth-You buy cheaper because in just the proportion that our carpet investment is reduced, our ability to sell cheaper is increased.

We have no expense for taking care of stock. No remnants nor unpopular patterns to be disposed of at a loss. Our investment is nothing under this method therefore the narrowest profit is sufficient. This statement merits your investigation. If you are a judge of carpet quality we particularly invite it.

Despair and Despondency No one but a woman can tell the story of the suffering, the despair, and the despondency endured by women who carry a daily burden of ill-health and pain because of disorders and derangements of the delicate and important organs that are distinctly feminine. The tortures so bravely endured comoletely upset the nerves if long continued. Dr. l'ierce's Favorite l'rescription is a positive eure for weakness and disease of the feminine organism.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

It allays inflammation, heals ulceration and soothes pain. It lones and builds up the nerves. It fits for wifehood and motherhood. Honest medicine dealers sell it, and have nothing to urge upon you as "just as good." It is non-secret, non-alcoholic and has a record of farty years of cures.

Ask Your Neighbors. They prohably know of some of its many cures. CRADLE ROLLS

County Sunday-Schools Urged to Adopt Department

The Cradle Roll is the tras infant class of the Sonday-school. It wims to place the Chellering care of the Church about the little ones by giving the l'astor and other officers of the Church and Sanday-school an opportunity to come in contact with the home through unitual interest in the haby. Thus at the caritest possible moment the child receives the heaest of the echool and the achool secures the co-operation of the home. The babics and children too young to attend the Sunday-rch of are the members. These babies may be the brothers and eisters of the pupils in the school, habies whose parents do not belong to any Church, babies of strangers in the neighborbood who have no Church preference. The babies may belong at birth and continue as members until old enough to be brought to Sunday-school regularly. They shuld then be transferred to the beginner's department. If snames are added to the reli, just to increase the membership, nothing will come of it, but if the Sunday-school officers and teachers regard it as an unusual opportunity for contact with home life, then the possibilities are limittose, especially if the homes have no Church

In echools which have maintained Craile Rolls we find the children brought into the Cheose the system you like best—warm air, steam or hot water. Cheapest siack in the Underfeed yields as much clean, even heat as most expensive grades; which ordinary heating plants require. All the fire is on top and has to eat down into the fresh cost against the draft. Combustion is slow and perfect, and smoke, sont and gases are entirely eliminated. This enables Underfeed furnace and boiler psees to Suntay-school much earlier, more home cooperation, often whole families brought into Church connection. The Cradle Roll is now considered essential in Sunday school work. As the work does not require elaborate equip m-ut, any school can start one whether it is is the city or county.

Tae first Cradle Roll was established in the Central Baptist Church, Elizabeth, N. J., in 1877 There are now over 19 000 (radle Rolls Out of 43 schools in Mason county only 10 have Cradle Rolls What is the matter with the other 33?

May we not arge the primary teachers of there Sunday-schools to organize Cradle Rolls, that we may have a better report at our next County Convent no?
